## LOGLINE

**A scaffolding builder loses his job and starts as a temporary worker at the funfair. There he is seduced by a showman into making a career as a fairground boxer - and hopes to fulfill a long-awaited dream for his deaf daughter.**

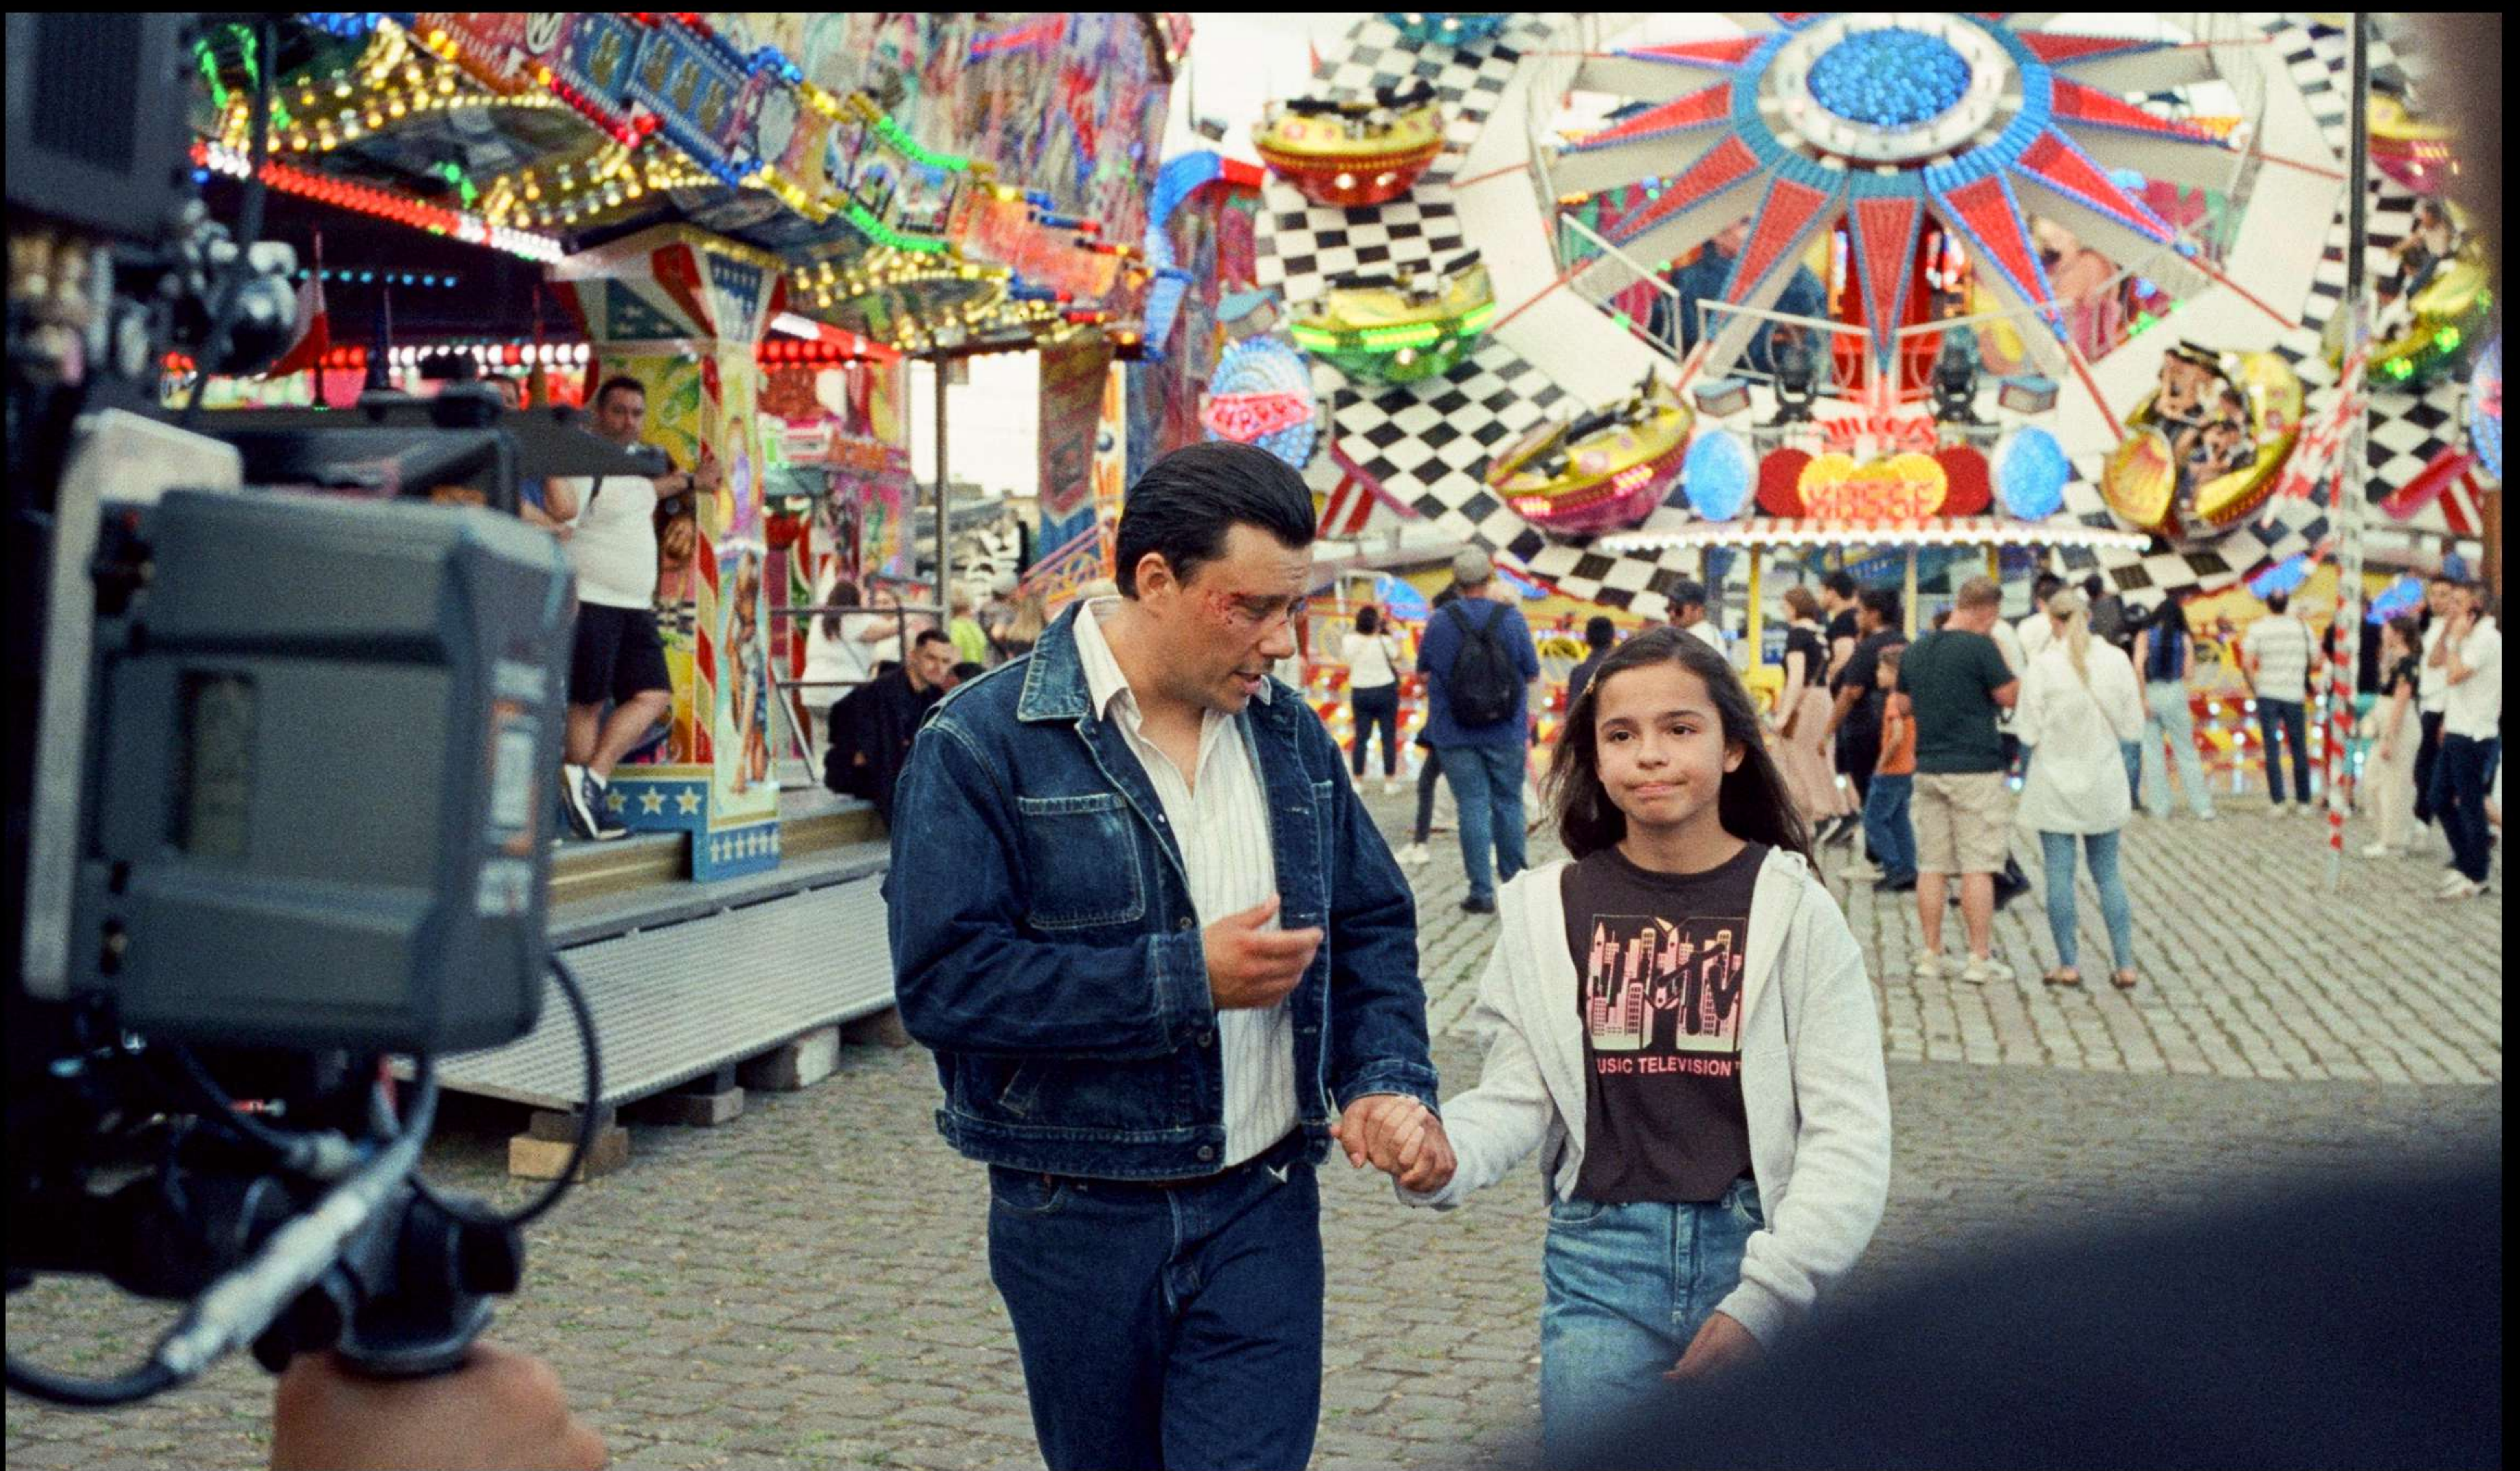

## SYNOPSIS

**Ringo Fleisch from Herne loses his job and starts working at a funfair. He gets drawn into this new world by Fränkie, a showman, into making a career as a fairground boxer. Ringo starts travelling with the carnival and leaves his tranquil home for the first time.**

**He manages to gather a new, small fairground family around him. Fränkie becomes a strong mentor who beckons with fast money and star status at the fair. The Great Hainz, a mime, becomes his loyal companion. Through Jenny from the bumper cars, he gets to know the fast and dangerous life of the carnival.**

**Ringo seems ambitious and suddenly has a clear goal in mind: At the end of the fair season, he hopes to fulfill a long-awaited dream for his deaf daughter.**

## **DIRECTOR'S NOTE**

**Rock 'n' Roll Ringo is a film about strength, courage, love and diversity.**

**Ringo is about the feelings of many parents to realize their children's dreams and desires. Ringo shows us that many of these dreams are often just the dreams of the parents. Perhaps the most important thing is the time available to build a relationship with his child, especially if she has special needs.**

**To capture Ringos environment in the most raw and authentic way, we decided to shoot on 35mm film, to emphasize the contrast between the colorful funfair and Ringos empty life.**
